

Daily Activities and work

Overview

Assignments and daily notes including links to the most important doc. and data. The purpose is to integrate the notes with my local notes that I can compile any time with **pandoc**

Tools and requirements

Using the following

- Pandoc which can compile my current document into a pdf file
- NVIM editor which I am using recently for flexibility and editing faster.
 - Using the formula

```
./script.sh && pandoc -f markdown N01_Note_Meeting.md -o N01_Note_Meeting.pdf && open N01_N
```

- Notes that I am using a script that I wrote in bash to turn-of and turn-off a script.

Meetings on DOCOM Project

Meeting of Feb 9th 2021 3:00 pm

Objectives:
